

Happy New Year!!!

Youth Newsletter

January 2020 Edition

Begin The New Year with Christ!

Often times we make New Years resolutions, but we find ourselves not sticking to them. The idea of setting a positive goal before you is never a bad idea, but as Christians we should not wait for a particular time of year to aspire to be better, yet we should wake up everyday yielding to God's Word.

The Bible is like a roadmap on how a Christian should live, but it doesn't command us to make resolutions at any particular time or season. Rather, you should start everyday resolving to live Holy. For that very reason, you should incorporate reading more of the Word into your daily routine.

Before you start your homework, commit to reading some scriptures that will aid in helping you understand your school work better and watch the power of the Word transform your life.

The Final Exam

A Professor stood before his class of 20 Sr Biology students, about to hand out the final exam. "I want to say that it has been a pleasure teaching you this semester. I know you've all worked extremely hard and many of you are off to medical school this summer. So that no one gets their GPA messed up because they might have been celebrating a bit too much this week, anyone who would like to opt out of the final exam today will receive a "B" for the course."

There was much rejoicing amongst the class as the students got up and passed by the professor to thank him and sign out on his offer. As the last taker left the room, the Professor looked out over the handful of remaining students and asked, "Anyone else? This is your last chance." One final student rose and took the offer. The Professor closed the door and took attendance of those students remaining. "I'm glad to see you believe in yourself", he said. "You all have A's"

Thank You

A special Thank You to Sis Sallie, Deacon Brown and the Teen Sunday School Teachers for Chaperoning the youth outing during the holidays to The Main Event. They had a great time playing games, ziplining and bowling!

Teen Money Saving Tip #1 Understand the power of Time

Scenario: You earn \$1000 from a summer job and you invest it at a rate return of 5%. In 50 years, assuming it's been untouched, you will have \$11,467.40. That's over \$10,000 dollars you made by just letting your money sit
